

# BIANCA AVILA

Full -Stack Developer

[biancavila.com](http://biancavila.com) | [biancasar93@gmail.com](mailto:biancasar93@gmail.com)

## ABOUT ME

An empathetic communicator who seeks challenges to inspire change. In pursuit of my passion for creating meaningful and relatable things, I leaped into web-development to start a new chapter in my career as a full-stack developer

## LANGUAGES

## WEB DEVELOPMENT PROJECTS

### Apetit

Full-Stack React.js application featuring CRUD user interface with authentication. The web app premise is to suggest most voted restaurants nearby to the user's location.

Technologies used: Java Script | JQuery | Postgresql | Node.js |

### Wanderer

RESTful traveling app that integrates a flexible CRUD user interphase to provide relevant information regarding travel destinations.

Technologies used: Java Script | JQuery | Postgresql | Node.js | Express.js

### BarkBook

Facebook for dogs. A dynamic web app built upon a friendship backend model and a full CRUD for user functionality.

Technologies used: Ruby on Rails

### Random Number

Front-end web application developed to challenge logic and basic math knowledge as a guessing game.

Technologies used: Java Script/HTML-5/CSS3

## TECHNOLOGIES

### JAVASCRIPT

### RUBY
